

Fabric Awnings

- *Classic Canvas Awnings*
- *Welded Frame Commercial Awnings*
- *Store-Front Vinyl Fabric Awnings*
- *Retractable Patio Covers*
- *Fabric Roll Curtains*

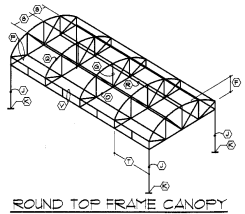

Since 1892, Mullin has produced some of the finest fabric awnings in the Midwest. We use *Sunbrella* acrylic fabric for most residential awnings, patio covers, and many commercial entrance canopies. Heavy-duty vinyl fabrics are often used for back-lit store front awnings.

The following pages have information and prices for canvas window awnings, retractable patio covers, welded steel frame commercial awnings and roll curtains. All products are custom-made for each job in the style and fabric you need.

Back-lit illuminated awning, uses welded steel frame and translucent vinyl fabric. Many colors of fabric, shapes, and graphics are available.

Gatorshield steel framework is cut and welded in our factory using engineered designs. These designs can give you almost any snow load or wind load you need for commercial projects, entrance canopies, smoker's canopies, and large residential awnings.

ROUND TOP FRAME CANOPY

Push a button—shade your deck! Monaco Retractable patio covers create a cool living space on your deck or patio.
